

## English (Reading and writing):

Text drivers/books to share:

- Yeti and the Bird
- Flat Stanley

Reading: This term, we are continuing with our phonics scheme, RWI, to improve our reading skills. We are going to be focussing on learning all of our tricky words for year 1 and 2. On the first week back we have our phonics screening test.

Writing: We are going to be collating all of our learning so far this year this half term. The class will be putting pen to paper a lot this half term, with a focus on remembering the three important factors of KS1; Capital letters, finger spaces and full stops.

## Mathematics:

This half term, we are revisiting the learning from the autumn term. The class will be working hands on with manipulatives to help solve addition, subtraction, multiplication, and division problems.

We are going to be focussing on correct number formation within our maths and building upon the children's number sense and subitising skills.

## Physical Education (Multi skills):

In PE, the class will be travelling in different ways, showing clear transitions between different movements with control and fluency. We will also explore static balances and control.

## Religious Education:

In RE this term, we will be looking at special religious places in Judaism, such as synagogues. Then, we are going to be exploring new ideas of God through Hinduism.

## Explore: (Curriculum Support)

Music: We will continue to follow our music programme on charanga and learn about the rhythm and beat of the music. The class will be having fun with improvisation. We are going to look at which songs which can sing to help us through the day.

Art: In art, we will be focussing on our drawing skills. The class will aim to be proficient in their drawing technique and can use these skills to develop and share their ideas, experience, and imagination. We have now introduced new materials to use in art such as crayons, pastels, and paint.

# Osborne House

## Class

# Years 1 + 2

## STEAM:

Science: This half term, the class are being introduced into the new topic - animals including humans. We are developing our scientific enquiry with our new science scheme. The class will be undertaking investigations to address common misconceptions.

Computing: This term the children will develop their understanding of the various aspects of using a computer to programme and animate characters to move across the screen. This will use their skills learnt in the year so far with the laptops.

## PSHE:

We will continue to follow our PSHE programme on SCARF. This term we will be looking at valuing difference with Mrs Young. The children will have mature conversations around important issues.

## Explore: Geography (Curriculum Support)

This term, we will be learning about the similarities and differences in relation to places, objects, materials and living things. They talk about the features of their own immediate environment and how environments might vary from one another.
