Here is our week in pictures

Early Years

Class 1/2

By Owen S-B

Class 3/4

In Science we have learned about different types of rocks. We were able to touch the rocks and feel if it is hard or soft. Some of the rocks we learned about are limestone, chalk, granite, slate and marble. My favourite was marble because it was smooth and sparkly. Pumice is hard because it is permeable.

In yr 3/4 we have been learning about different types of rock. There are three types of rock, igneous, sedimentary and metamorphic. Limestone is a sedimentary rock and it is made up of tiny pieces of compressed shells. Granite is a type of igneous rock and it is a hard rock. Slate is a type of metamorphic rock, and it's often very thin. I enjoyed learning about rocks. Beau Reef goodyear yr 4.

Class 6

This week I have learnt how to multiply fractions by fractions in maths.
Now I can do it more confidently and know how to do it.

I also have learnt how to multiply fractions by intergers.

Conner D	For making a much improved and consistent effort into his work, attitude and focus. Well done!

We would like to thank you for your ongoing support in helping the children to transition back to school so well, ensuring they have the correct things in school and following the guidance we have set. This includes your support in sending the children to school in their PE kits on the correct days. This has worked really well.

As a reminder, here are the days each class will need to wear their PE kit to school.
